

Supervisors Report July 2016

Since my last report I have worked on Township Business all or part of 29 days with hours totaling 235 hours. A partial breakdown of those hours follows, Chaired 1 regular meeting, 1 Work session, 1 special Budget Meeting, 1 Election Committee Meeting, Attended 1 911 Board Meeting, 1 Co. Commission Work session, 1 Co. Commission Board Meeting, Attended a SI Information Session, Spent many hours at the Marina as well as working at the other parks. I have ordered a water valve for the drinking fountain at the Carlos Park. It is an old drinking fountain so the part is a special order it may take some time to arrive. We are putting up a new outside light on the restrooms there this week. I also took part in the Road Brining process we have now completed our second brining of the year. I received and handled many refuse and recycle complaints and made several contacts with Republic. I have placed an order for additional recycle tubs as well. I had numerous positive comments on our SI program reports of SI continue to decline.

Our Marina and Park Employees have done a great job servicing our residents and park users over the holiday.

Respectfully,

Frank Homola
