

Supervisors Report

May 2016

Since my last report I worked on Township business 29 days with hours totaling 220 hours. A partial breakdown follows, Chaired 1 Board Meeting, 1 Work Session, Attended 1 RCTA Meeting, Met with the representative from Beckman's and a representative from Lyon Twp. ref. road Brining as well as coordinating road grading with the road comm. I Met with Rep. *660 main* Rendon, Attended the Rotary Fund raiser event. Coordinated park cleanup at the Carlos St. Park, as well as cleanup at the Marina Grounds at the Community Park.

I worked many hours at the Marina and am pleased to say we got all the docks and hoists in as well as the fuel system 2 weeks ahead of our target date. S&J did the ramp clean out today as well. I have Scotts scheduled to pump the septic tank at the Carlos park for late this week or early next week. The new Brine date is set for May 19th. I and one of the other Twp.

Employees will be riding in the trucks to assist there drivers.

We will be putting the swim markers in at the Carlos St. park next week in preparation of a Hot Memorial weekend.

I met with and handled several citizen's ref there concerns and coordinated then to the right people to further assist them.

Since we are a recreation community many of these contacts are handled during the weekends when the property owners are up here.

I would like to compliment Fire Chief Lippert and his department for there quick and professional handling of the fire at the compost site last Saturday. There quick actions certainly prevented a disaster.

Respectfully,

Frank Homola
Supervisor
