MARINA REPORT MARCH 7, 2019

- Marina fees for 2019 totaling \$196,065.00 have been received.
- Jim Lippert and I will be meeting with DEQ Water Resources Manager on March 28th to update the township marina permit.
- Concrete repairs to the bottom of the launch ramp will occur at ice-out, whenever that occurs.
- The purchase of another work barge is in the works. I have identified a pontoon for this purpose. The cost is \$500.00 contingent on inspection and sea trial (it must float). A second barge is necessary for back-up and two barges will allow for faster dock and hoist in and out.
- Improvements for handling docks and lifts on the marina barge are ongoing. Sketches for these modifications are in the works and when finalized, changes will be made.
- Applications for seasonal employees, and a marina manager are forthcoming.
