

Marina Report November 2015

Not much new to report. The Marina is closed up for the winter short of the restroom outside. The ice rinks are set up I will be water testing them soon. I need to replace some of the big light bulbs first. They are a special order item. And to top that off I have a issue with the big overhead door. I will be tackling that next week.

Jamie and I will be finishing up inventory of remaining product that we have left in stock next week also.

We will be taking part in the Winter Fest activities once again this winter as well as keeping the area open for winter sports.

Respectfully,

Frank Homola
