

SUPERVISOR'S REPORT SEPTEMBER 14, 2021

- August 16, I attended public hearing for Gerrish Township Police / Fire / EMS budgets.
- August 17, I met with residents to hear suggestions for road improvements with Art Allen from the RCRC.
- On August 19 I attended the Roscommon County Townships Association held here in our Gerrish Township Hall. In that meeting, Township elected officials from Roscommon County Townships reported on activities and events happening in their home townships. We also were given updates from County Commissioners and a special report relating to the county Gypsy moth this past summer.
- On Monday August 23 we heard from a representative from USDA to discuss possible funding for the Gerrish Lyon Sewer Project.
- On August 27 I participated in a Public Presentation at the Roscommon High School to allow residents to hear from engineers, legal, and municipal advisors about our proposed sewer project. There were over 200 residents in attendance that had the opportunity to ask questions of the team members.
- I also attended several meetings related the GLUA. Residents attended several of these meetings and asked substantive questions. We encourage members of the community to check the GLUA meeting schedule and attend meetings to become more informed relating to the sewer project.

David Udy

Gerrish Township Supervisor
