

To: Gerrish Township Board

From: Julie Tatro, Township Assessor

Re: Assessor March 2022

- **Board of Review was held March 14 & 15**
- **All data and required reports were submitted to Equalization on March 21, we are balanced with them, the database was archived and rolled over to begin work on 2023.**
- **The State Tax Commission has developed a new online reporting tool for assessors and equalization directors to upload required reports. It is called the Michigan Equalization Gateway. (MEG) Assessors were required to upload the L-4022 (Report of Assessment Roll Changes) for the first time this year. It is anticipated that use will be expanded in the coming years.**
