

Gerrish Township, and the Higgins Lake area, is known for having amazing recreational amenities! Gerrish Township is working to update its 5-year Community Recreation Plan to cover years 2025 – 2029. Once completed the plan will guide the future enhancement and development of recreation in Gerrish Township.

A Community Recreation Plan needs to be approved by the Michigan DNR every five years for the community to qualify for grant funding for recreational improvements. Citizen input is critical to help the township draft the plan.

Here's how you can help. Gerrish Township has developed an online recreation survey to gather public opinions on recreation and they hope to hear from everyone who uses recreational facilities in the area. If you would like to give your opinion on parks and recreation in Gerrish Township to help them plan for future improvements, please take the online survey at <https://www.surveymonkey.com/r/GerrishTownship>

The survey should only take 10 minutes or less to complete. Please help guide the future of recreation in Gerrish Township. Thank you for your participation.
