

SUPERVISOR'S REPORT

TUESDAY FEBRUARY 9, 2021

- Along with Treasurer Tulgetske I participated in two conference calls to discussing issues relating to our sanitary sewer project. The last two sections of questions given to Lyon Township by their township attorney were discussed in the first call. The second conference call took place later in January and included the lawyers and municipal advisors that are working with both townships on the project. The lawyers now have the information necessary to write the draft Articles of Incorporation for the Gerrish Lyon Sewer Authority. Once the draft is received both township boards and their attorneys can review and comment. After the draft is approved by both townships, each township will approve the Articles of Incorporation by resolution. Next steps will include seating the members of the utility board, creating the by-laws for the authority and work with Fleis&Vandenbrink to apply for grants and loans from the funding agencies.
- On February 4th. I attended the monthly township workshop to prepare for tonight's meeting.
- This morning I attended the monthly meeting with the Roscommon County Transportation Authority as a Board Member. Ridership on the county bus system was down almost 50% primarily due to COVID concerns.
- During the past month I have been in contact with several residents to help address concerns with missed trash and recycle issues.

David Udy

Gerrish Township Supervisor
